## NOP'S TRIALS

by Donald McCaig (p. 9)

Lewis Burkholder has all he could want in life: a loving wife and daughter, a thriving sheep farm in Virginia, and Nop, his devoted Border collie. Nop is trained as a working dog, and is a champion of prestigious sheepdog trials. But when Nop is stolen by crooked dog dealers Lewis is pitched into a brutal and confusing new world, and in the quest to find his dog, he has to face obstacles that would deter a lesser man.

*Nop's Trials* is an inspiring novel that celebrates the rare qualities shared by Nop and his master: courage, love and the refusal to give up hope.

## THE FOURTH PROTOCOL

by Frederick Forsyth (p. 139)

Publication of a new novel by master-storyteller Frederick Forsyth is a major event in the publishing world. His eagerly awaited new thriller is the story of a plan, dangerous beyond belief, aimed at tumbling Britain into revolution—a plan designed to breach the ultra-secret Fourth Protocol and turn the fears that shaped it into a living nightmare. Can MI5 halt its execution and prevent disaster?

*The Fourth Protocol* is towering entertainment. For sheer adventure and excitement it stands in a class of its own.

## THE CANYON

by Jack Schaefer (p. 299)

The canyon is a secret paradise, a remote place on the buffalo plains of North America. Here a man can find everything he needs to survive—fresh water, food in plenty, shelter from the elements.

But as the young Cheyenne brave called Little Bear learns, even here a man cannot live without facing danger, without having to fight to preserve his refuge. Above all, he finds that he needs love and companionship to ease his lonely heart.

This is a story rich in Indian lore, a classic evocation of the West before the arrival of the white man.

## Stormswift

by Madeleine Brent (p. 361)

Freedom seems an impossible dream to Jemimah Lawley, captive in a remote Himalayan kingdom, until a mysterious peddler reluctantly helps her to escape. This help costs him dear, but a bond is forged between them that will be unexpectedly tested in another land, at another time . . .

Back in England Jemimah finds herself homeless and without a name, thrown into a colourful and romantic adventure which entangles her in a web of dangerous intrigue.

*Stormswift* sparkles with all the brilliance one has come to expect from the author of *Moonraker's Bride*.
